Dr. Wagner, Who Operated in Dickinson County, On Trial for Perjury.

CASE NOW IN JURY'S HANDS

Intimation That If Man Is Found Guilty Lunacy Proceedings Will Be Instituted.

[From Our Regular Correspondent,]
WASHINGTON D. C., May 23.—A
friend of the Jamestown Exposition
said to-day that he regretted very
much the general publication of the
story that Governor Swanson and his
wife had to ride from the Virginia
Building to the wharf in a dirt cart.
He said that as a matter of fact the
whole thing was a joke. The Governor
had arranged for a carriage and a
dray wagon to come for them and
their trunks. The dray got there first,
and one of the ladies in the party jokingly bantered the other to go in the
dray. The Governor fell in with the
fun, and in short order all hands were
en route to the wharf in the dray.
While going to the wharf they met
President Tucker in his carriage, and
in the same spirit of fun that had led
them to start out this way, Governor
Swanson halled President Tucker with
the remark that if he had been an
exposition official things would have
been different, but that if he had been an
exposition official things would have
been different, but the since he was
uothing but plain Ge ernor of Virginia, it was a dray wagon for his.
The story got to the ears of some
overserious newspaper men, and they
immediately gave it wide circulation.
If they had known the love of the
humorous that lodges in the breast of
the Governor, as well as characterizes
Mr. Tucker, things might have been
different.
Northern papers have in some in-

different.

Northern papers have in some instances commented very seriously on the incident.

A lawyer named Chase represented Dr. Wagner in his suits in Dickenson county to explain the transaction. As soon as the Dickenson court learned the true status of affairs the judgments which had been awarded Wagner were set aside. It is for making afflavit that they were still in force that he is being tried for perjury. The jury now has the case. If Wagner is found guilty the judge intimated that lunacy proceedings would be held to determine whether he should go to the peniteriary or to an insane asylum.

"The church cannot hope to influence those who make and execute civil laws, to give protection to the family, to make the sundering of marriage ties and the forming of new alliances more difficult, unless by a strict adherence to its own teachings the church holds those who minister by its authority responsible for the violation of its teachings.

"The church has it in its power to put such opprobrium upon divorces or remarriages that have not the sanction of God's word that those who dread its condemnation and desire its recognition will hestinate to ostracize themselves.

"But if the church permits its seal to be put upon such simil alliances, it it allows its silence to seem its approval, if it withholds its power to condemn, in deference to a power to contribute, it need not think it strange that its influence for reform is so little regarded.

The committee recommended the passage of the following resolution:

"Resolved, That presbyteries are hereby enjoined to enforce the standards of our church, to hold to strict account all ministers under their care and to urge all ministers to regard comity that should refrain from giving the sanction of our church to members of another church, whose marriage is in violation of laws of the church whose communion they have chosen."

Although it was rumored that an attempt would be made for the reconsideration of the action on the Anti-Salcon League, no such step was taken.
